GO GREEN TRAVEL CLEAN!!

‘Every step you take brings you closer to a beautiful destination’, but many times it also leaves behind carbon footprints. For many, to travel is to get closer to the serendipity of the environment. But what can be liberating to one’s soul can often be of great damage to our Mother Nature. Being in the lap of the marvellous beauty of nature comes along with certain duties and responsibilities. Right from booking your travel tickets to carrying back an extra bag of souvenirs, there are so many travel habits that do not sit right with the necessity for eco-friendly travel

WE WILL DISCUSS ABOUT

PROBLEM STATEMENT

OUR IDEA

BENEFITS

CHALLENGES

PROBLEM STATEMENT

Propose eco-friendly to travel

OUR IDEA

Sustainable Accommodations

Partnering with hotels and resorts that have green certifications, use renewable energy, recycle waste, and promote water conservation..

Offer Eco-Friendly Travel Packages

Create travel packages that include stays at eco-friendly accommodations, use of sustainable transportation options, and participation in environmentally friendly activities.

Collaborate with Sustainable Suppliers

Work with suppliers that prioritize sustainability in their operations, such as hotels that use renewable energy or tour operators that support conservation efforts.

ACCOMMODATION WE PROVIDE

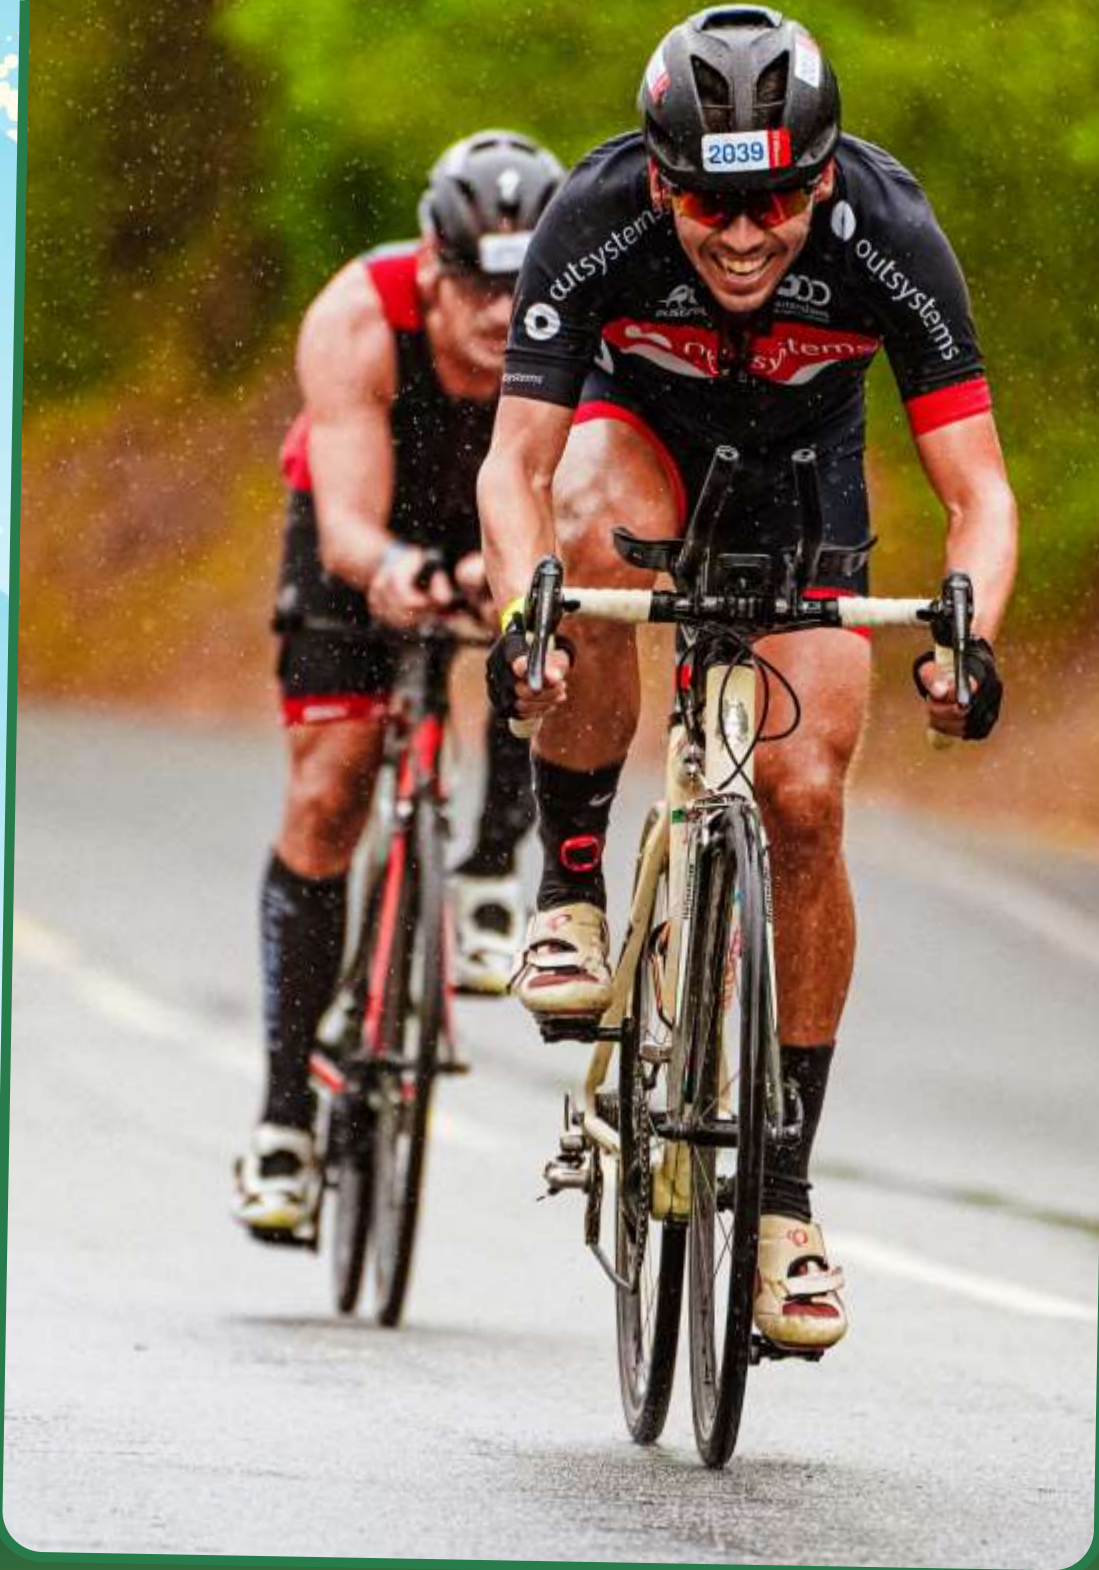

Support Local
Cultural and
community

Provide Eco-Friendly
Travel Tips

Measure and Report
Impact

Cycling Packages

Include cycling as part of your travel packages, combining it with other eco-friendly activities like hiking, kayaking, or nature walks.

Create cycling tours that take travelers through scenic routes, historical landmarks, and local attractions. Provide options for different skill levels and interests.

BENEFITS

Reduce Carbon
Footprint

Protect Natural
Resources

Promote
Sustainable
Practices
